Greetings in the Sun-day ...

Now, before I begin my comments ... Let me say that ... Science is ruled by Politics ... Military and these two need the approval of Religion ... and all rule Economy.

Therefore a discovery or the solution of a Paradox ... (or all) ... will not reach the expected public ... without the approval of some group of previous groups.

Politics is not necessarily clean ... and the partners find accord and agreement where Truth, Honesty and Benevolent Brotherhood are not necessarily respected or accepted.

All this is to say that what you have is what is permitted to you to have ... and nothing else. Not what you want ...

Einstein Theory is not an exception but the most fundamental set (beauty of course) ... of what people must understand for the Limit or Border of Science ... and there are no such limit, or Border.

Einstein Theory fix some limits ...

- The speed of light like a constant ... 300,000 Km/s ... not what you want. This is a lie, a false statement. You can go at the speed you want ...
- There are no life in the Universe. This is another key limit ... Of course there are life in other planets ... A Good person from Nola close to Naples say these facts before 1600 and was born alive ... He was Giordano Bruno ... One of many first actors (144 now total and 55 main actors ...)
